

SISTEMI PIEGHEVOLI PER PORTE

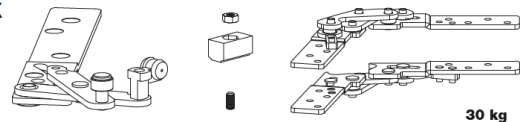

PIEGHEVOLE A BATTENTE FOLDY

Foldy è il sistema per porte pieghevoli e per porte a libro in legno, con apertura tramite cerniere esterne o cardini.

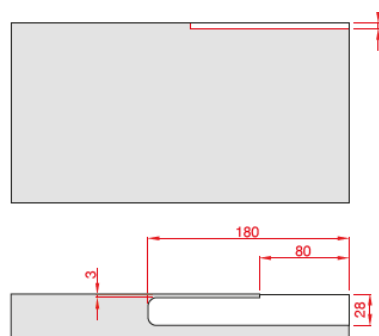

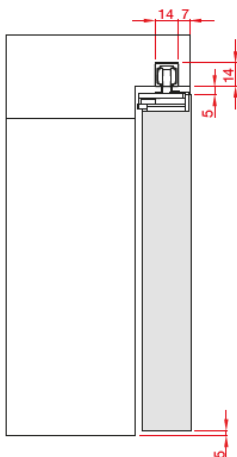

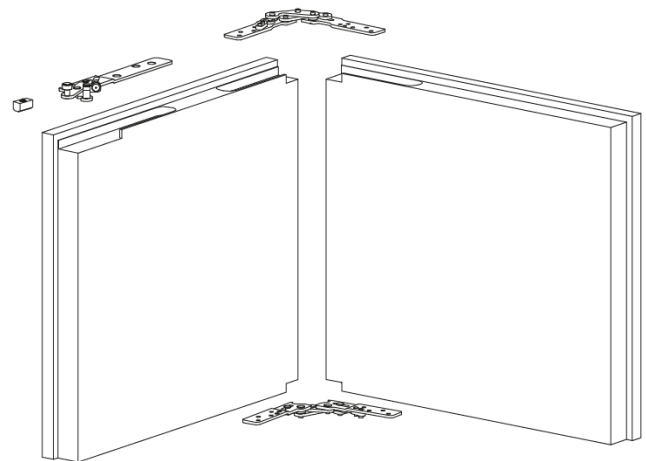

Il sistema ha **molteplici configurazioni**, in grado di soddisfare qualsiasi esigenza: Foldy si compone, infatti, di due ante pari o due ante disuguali; le ante possono essere ravvicinate o distanziate; il sistema è compatibile con cerniere esterne oppure cardini.

Foldy, infine, integra la possibilità di apertura delle porte sia a destra che a sinistra.

SISTEMI PIEGHEVOLI PER PORTE

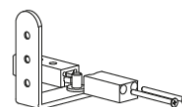

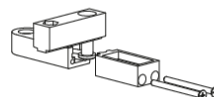

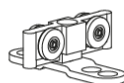

PIEGHEVOLE A BATTENTE PRATICO

Pratico è il sistema brevettato ideale per la conversione di porte battenti in porte pieghevoli.

Il sistema è **estremamente funzionale**, poichè **non è necessario modificare gli stipiti esistenti**.

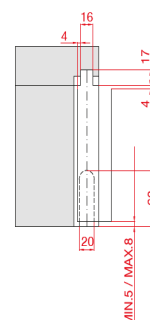

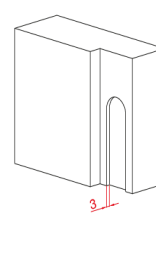

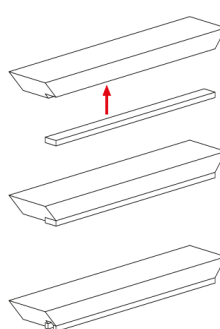

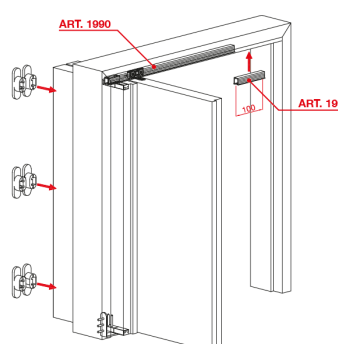

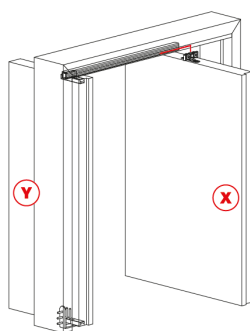

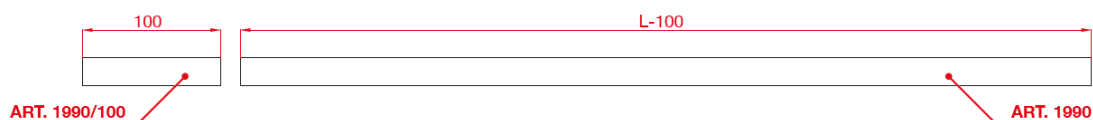

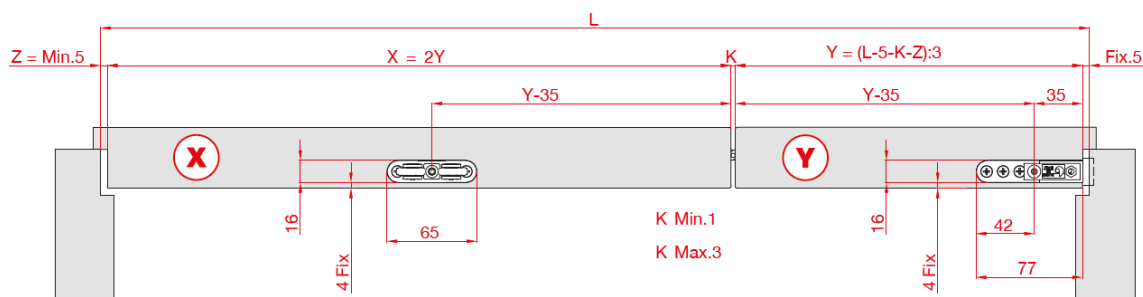

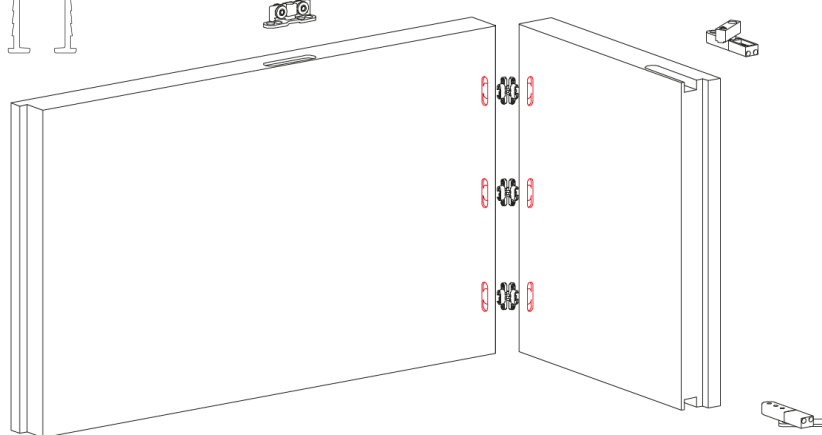

Pratico si può utilizzare con cerniere a scomparsa, maniglie e serrature per porte battenti.
